As an old saying goes, if you want to learn something, teach it. A degree in teaching English is therefore the top choice for anybody who wants to master the English language very well, even without any intention to ever become a teacher. (Still, it leaves you with a second job choice that a conventional B.A. English cannot offer - not that bad either.)

In this 121-credit B.A. TESOL Program at Siam Technology College (STC), you will earn an internationally recognized Bachelor of Arts in TESOL plus additional Certificates in Language Acquisition, Phonology, Morphology and Syntax, and TESOL Methodology.

We have 3 different kinds of courses that you, as a registered student, can sign up and take.

In the following week, the next course starts.

Weekend Classes

In addition to weekly classes during the months of March, April, and October, Siam Technology College also has regular weekend courses available in May-September and November-February.
